## DETAILED ACTION

### *Drawings*

1. Figures 1 and 3 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

3. Claims 1, 6, and 7 are rejected under 35 U.S.C. 102(a) as being anticipated by applicant's submitted prior art of Fig. 2.

In claim 1, applicant's submitted prior art of Fig. 2 teaches all claimed features, a data storage element (Fig. 2), comprising: a primary data input (102); a primary clock input (104) for selecting storage of a level (logic 1 and 0) of the primary data input; an alternate data input (108), wherein the alternate data input is received by an inverter-

style branch circuit (202, 204); and an alternate clock input (110) for selecting storage of a level (logic 1 and 0) of the alternate data input.

Claim 6 corresponds to detailed circuitry already discussed similarly with regard to claim 1.

Claim 7 corresponds to detailed circuitry already discussed similarly with regard to claim 1.

4. Claims 2-5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Claims 8-10 appear to comprise allowable subject matter.
